Dear Hugo,

I thing about some others informations on the family Thilo for a possible way for you research:

1. all the parts of the family Thilo are comming from Liegnitz (legnica) now in Polen, further in Schlesien. From Schlesien went the family to many parts of Germany (according to me: to Livonia, via Wittenberg)
2. in my family history, one Thilo (georg thilo) was said to come from Masstricht - but is not right - so i thing that this thilo could be perhaps "our" georg
3. many parts of the family were called "von thielau", "von thielau und steinberg", "t(h)ylo", "thilaw". Some are till called so; some no more. Perhaps you can find something through these names (all coming from Schlesien)

I have some more informations in the family archievs about some "others" thilo branches , but so soon i found them again, i send you.

Best regards

jean-françois thilo
